

Proceedings of the 10th ESREA Triennial Conference University of Milano Bicocca, Department of Human Sciences for Education, 29 September-1 October 2022

The ESREA community celebrated at the University of Milano Bicocca last year 30 years of ESREA. The 10th Triennial conference *New seeds for a world to come* was a great opportunity to gather together, look back with satisfaction, look forward with hope, and enhance a sense of belonging to this community. [...]

In the conference call, we mentioned the “dramatic changes” that were (and are) going on in individual and collective lives, bringing unexpected revisions of common educational and cultural practices, and compelling us to deal with the experience of the pandemic, and its consequences. However, we also stated our desire to make the Conference “a positive reflexive moment to look at the future, to mobilize the best energies of adult education research and intervention, and interrogate the controversial, nonlinear effects of the ongoing ecological, economic, and social changes”.
