

## CONTENTS

- Foreword – In memory of Maurizio Gaetani
- Gennari V. & Rettori R. – *Globigaetania angulata* gen. n. sp. n. (Globivalvulininae, Foraminifera) from the Wordian (Middle Permian) of NW Iran
- Özcan E., Erbay S., Abbasi İ., Pereira C.D., Erkizan L.S. & Kayğili S. – The first record of *Nemkovella daguini* (Neumann, 1958) from the middle-upper Eocene of Oman (Arabian Peninsula) and Meghalaya (Indian Subcontinent) and its significance in Tethyan correlations and paleobiogeography
- Pavia G. & Fernandez-Lopez S.R. – Bajocian Lissoceratinae (Haploceratoidea, Ammonitida) from the Mediterranean-Caucasian Subrealm
- Garzanti E., Ghassemi M.R., Limonta M. & Resentini A. – Provenance of Karakum desert sand (Turkmenistan): lithic-rich orogenic signature of Central Asian dune fields
- Grădinaru E. & Gaetani M. – Upper Spathian to Bithynian (Lower to Middle Triassic) brachio-pods from North Dobrogea (Romania)
- Dulai A. – New data on the Late Miocene brachiopod fauna of Tetti Borelli (Piedmont, N Italy)
- Powell J.h., Nicora A., Perri M.C., Rettori R., Posenato R., Stephenson M.H., Masri A., Borlenghi L.M. & Gennari V. – Lower Triassic (Induan to Olenekian) conodonts, foraminifera and bivalves from the Al Mamalih area, Dead Sea, Jordan: constraints on the P-T boundary
- Meister P. & Frisia S. – Dolomite formation by nanocrystal aggregation in the Dolomia Principale of the Brenta Dolomites (Northern Italy)
- Basso D., Coletti G., Bracchi V.A. & Yazdi-Moghadam M. – Lower Oligocene coralline algae of the Uromieh section (Qom Formation, NW Iran) and the oldest record of *Titanoderma pustulatum* (Corallinophycidae, Rhodophyta)
- Erba E., Gambacorta G. & Tiepolo M. – The lower Bajocian Gaetani Level: lithostratigraphic marker of a potential Oceanic Anoxic Event
- Krystyn I., Balini M., Aghababalou B.S. & Hairapetian V. – Norian ammonoids from the Nayband Formation (Iran) and their bearing on Late Triassic sedimentary and geodynamic history of the Iran Plate
- Muttoni G. & Kent D.V. – Adria as promontory of Africa and its conceptual role in the Tethys Twist and Pangea B to Pangea A transformation in the Permian
- Tintori A. – Predators and preys: a case history for *Saurichthys* (*Costasaurichthys*) *costasquamosus* Rieppel, 1985 from the Ladinian of Lombardy (Italy)
- Balini M., Nicora A., Zanchetta S., Zanchi A., Marchesi R., Vuolo I.,

Hosseiniyoon M., Norouzi M. & Soleimani S. – Olenekian to Early Ladinian stratigraphy of the western part of the Aghdarband window (Kopeh-Dag, NE Iran)
