

CONTENTS

- Cirilli O., Zouhri S., El Boughabi S., Benvenuti M.G., Papini M., Bernor R.L. & Rook l. – *The hipparionine horses (Perissodactyla: Mammalia) from the Late Miocene of Tizi N'Tadderht (Southern Ouarzazate Basin; Central High Atlas; Morocco)*
- Schädel M., Müller P. & Haug J.T. – *Two remarkable fossil insect larvae from Burmese amber suggest the presence of a terminal filum in the direct stem lineage of dragonflies and damselflies (Odonata)*
- Pandolfi l., Martino R., Rook l. & Piras P. – *Investigating ecological and phylogenetic constraints in Hippopotamidae skull shape*
- Benvenuti M., Moratti G. & Rook l. – *Tectono-stratigraphic revision of the Ait Kandoula Formation (Middle Miocene-Pliocene), western Ouarzazate Basin (Southern Morocco)*
- Dominici S., Forli M., Bogi C., Guerrini A. & Benvenuti M. – *Paleobiology from Museum collections: comparing historical and novel data on Upper Miocene molluscs of the Livorno Hills*
- Stringer G.l., Schwarzhans W., Phillips G. & Lambert R. – *Highly diversified Late Cretaceous fish assemblage revealed by otoliths (Ripley Formation and Owl Creek Formation, Northeast Mississippi, USA)*
- Angelone C., Moncunill-solé B. & Kotsakis T. – *Fossil Lagomorpha (Mammalia) of Italy: systematics and biochronology*
- Tsai C.-H., Collareta A. & Bosselaers M. – *A Pliocene gray whale (Eschrichtius sp.) from the Eastern North Atlantic*
- Dalla Vecchia F.M. – *Raibliania calligarisi gen. n., sp. n., a new tanystropheid (Diapsida, Tanystropheidae) from the Upper Triassic (Carnian) of northeastern Italy*
- Dulai A. & Von der Hocht F. – *Upper Oligocene brachiopods from NW Germany, with description of a new Platidiinae genus, Germanoplatidia n. gen.*
