Today's European Union is in an identity crisis as it seems to be losing its points of reference. The principles that upheld its creation are being increasingly questioned around the world and within the EU itself. Its chances to survive hinge upon its ability to deliver at home and abroad, without abandoning its values and principles but rather adapting and re-launching them.

This volume offers policy options on key questions for the future of the EU: How to scale-up its role abroad? How to benefit from new partners without severing ties with traditional allies such as the US? How to contain Eurosceptic forces by reducing inequalities? And how to reinforce the euro while aiming at more sustainable and balanced growth?

ISPI

Founded in 1934, ISPI is an independent think tank committed to the study of international political and economic dynamics. It is the only Italian Institute – and one of the very few in Europe – to combine research activities with a significant commitment to training, events, and global risk analysis for companies and institutions. ISPI favours an interdisciplinary and policy-oriented approach made possible by a research team of over 50 analysts and an international network of 70 universities, think tanks, and research centres. In the ranking issued by the University of Pennsylvania, ISPI placed first worldwide as the “Think Tank to Watch in 2019”.
